About Us

Timeless Transport Models

Serving thousands quality modeled cars, trains, trucks, buses, ships and planes since 2003.

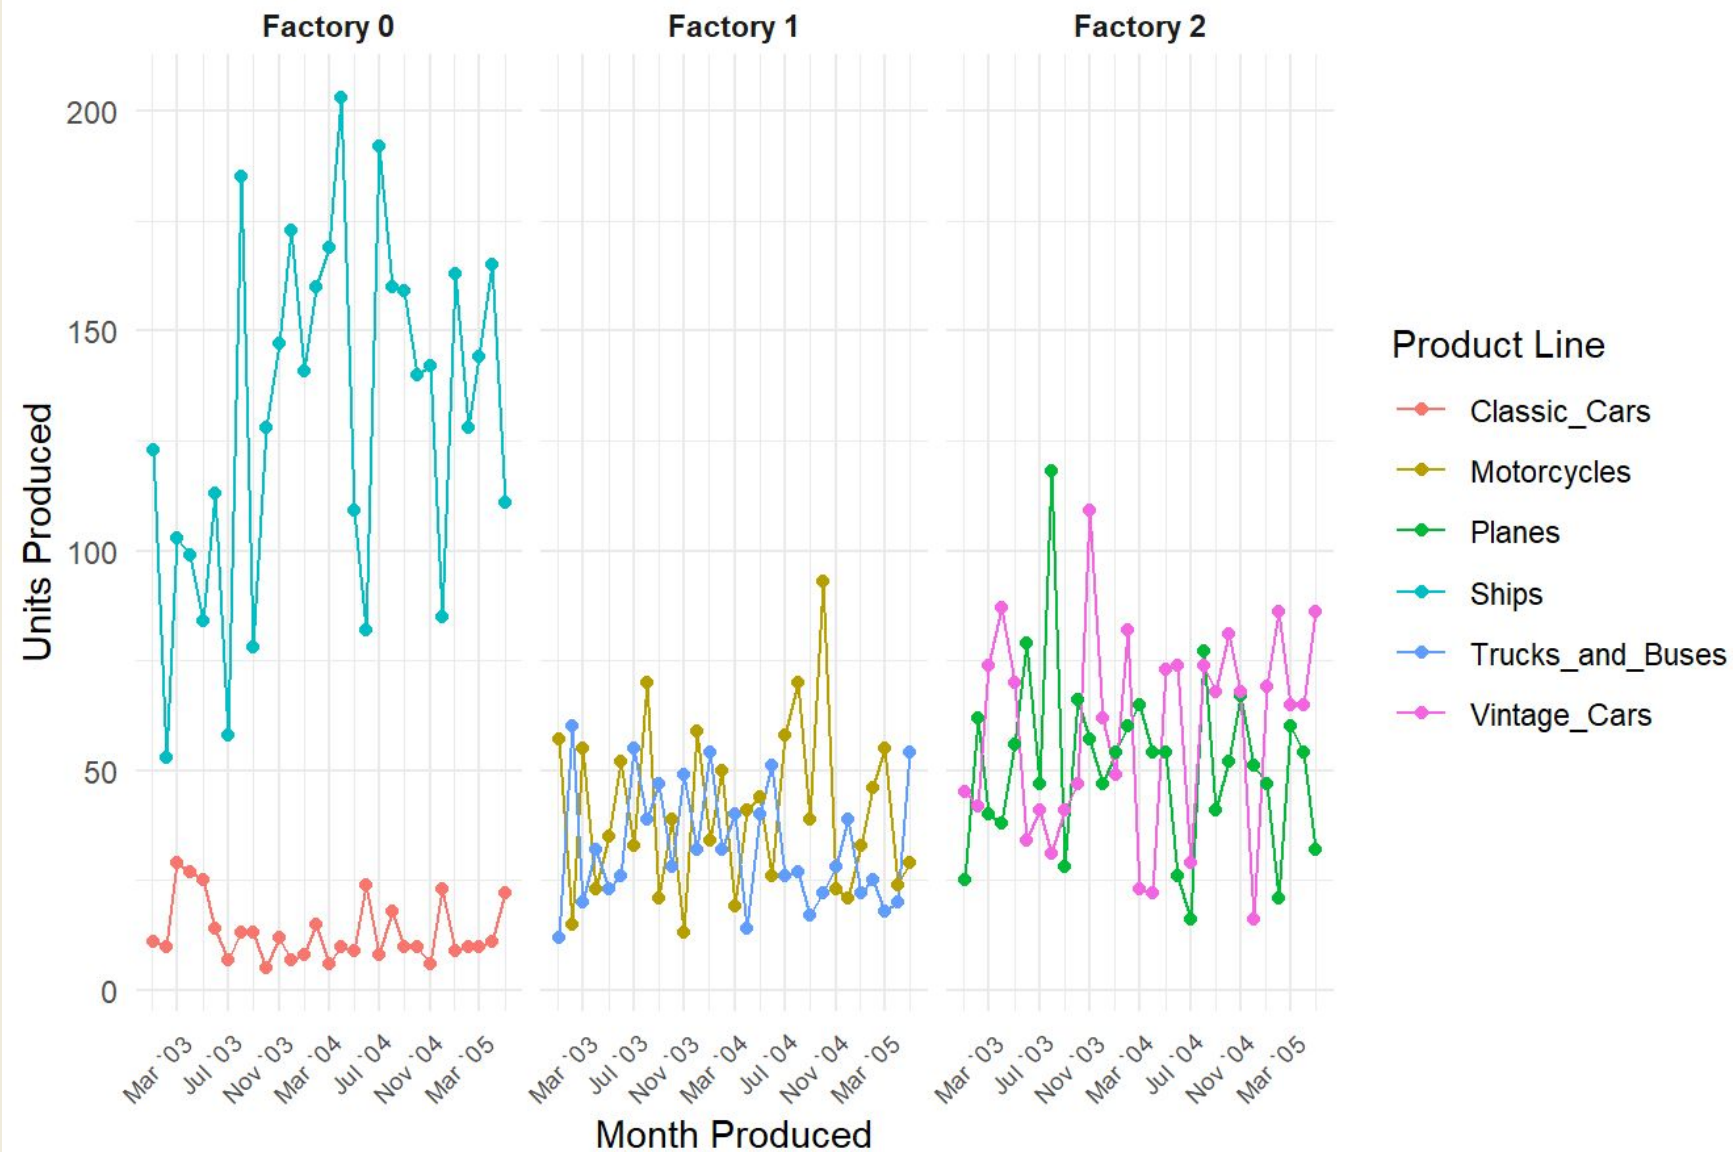

Forecasting, more **Refinement,** more **Sales**

Provide actionable insights based on past productions, current sales, and upcoming trends.

- Maximizing Profits
- Fine Tune Production
- Building Relationships
- Marketing Efforts

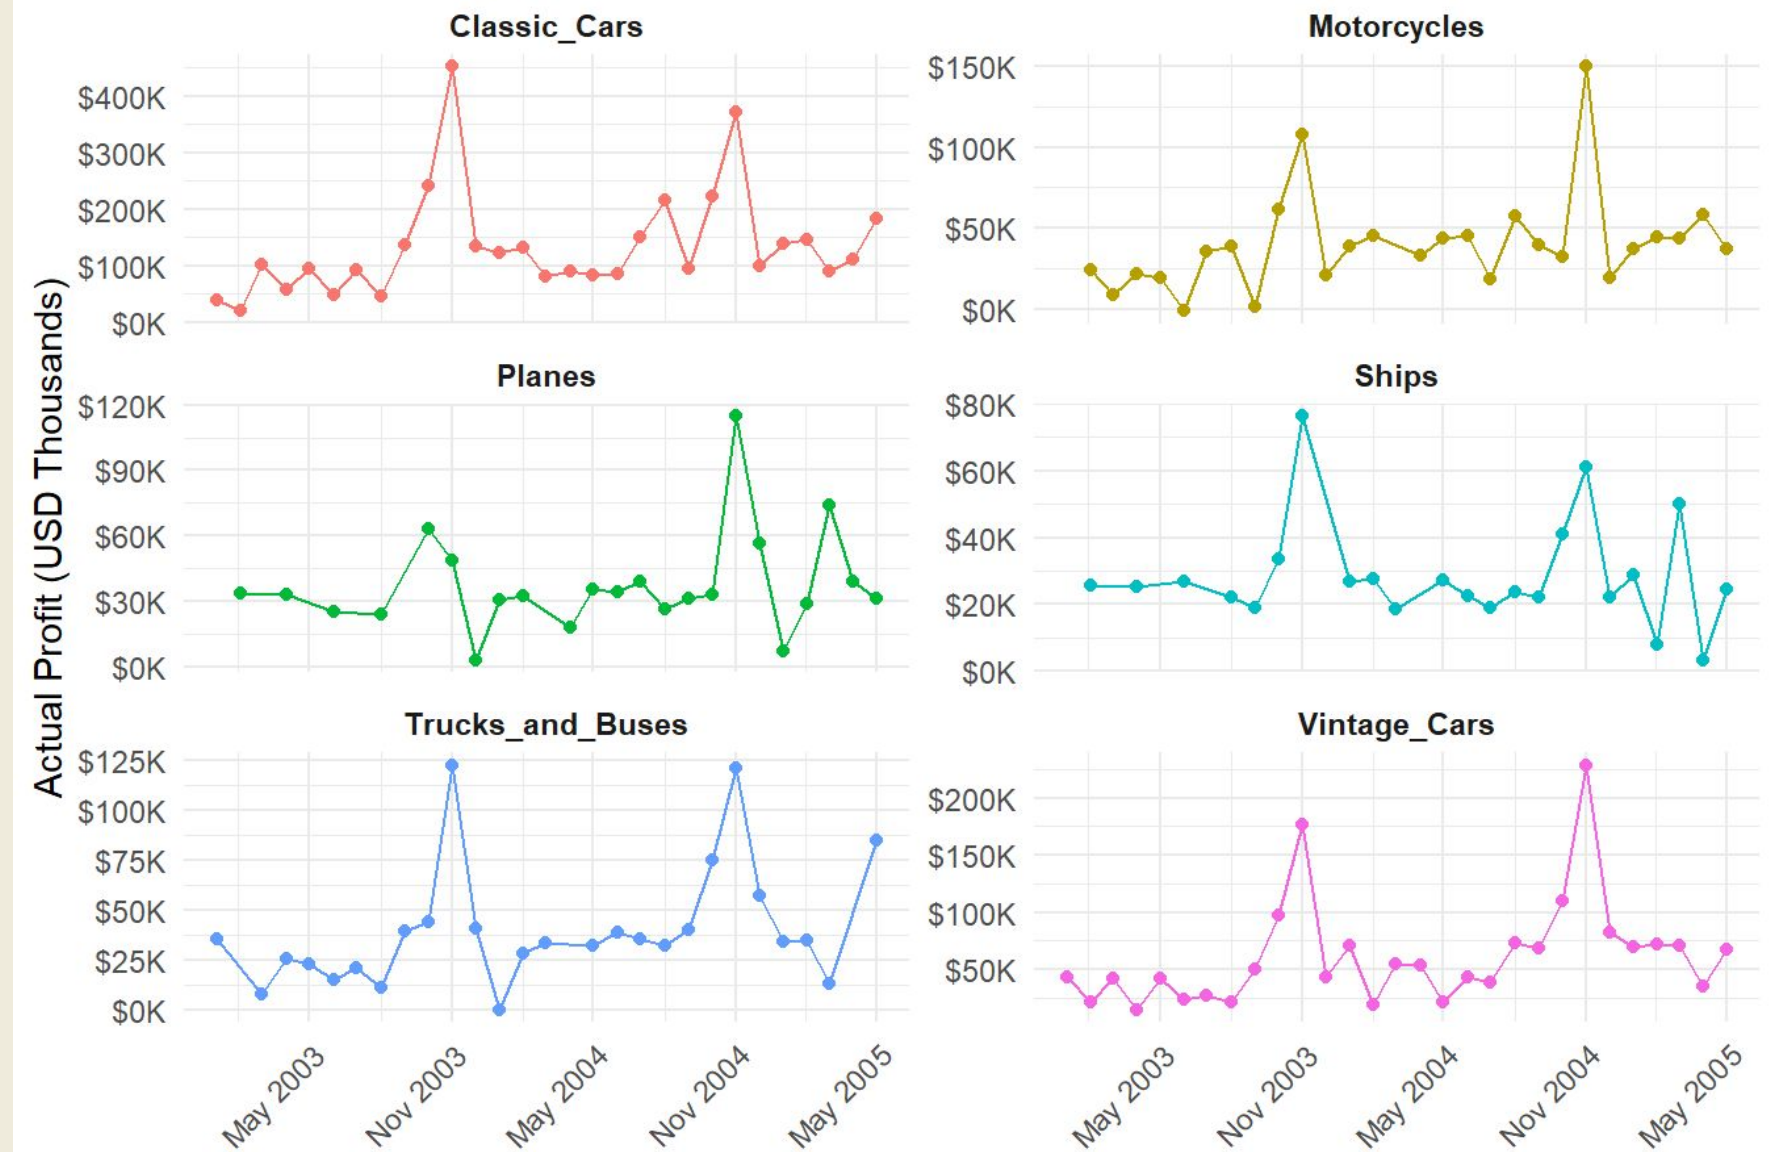

Seasonal Production

Monthly Production by Product Line Over Time (By Factory)

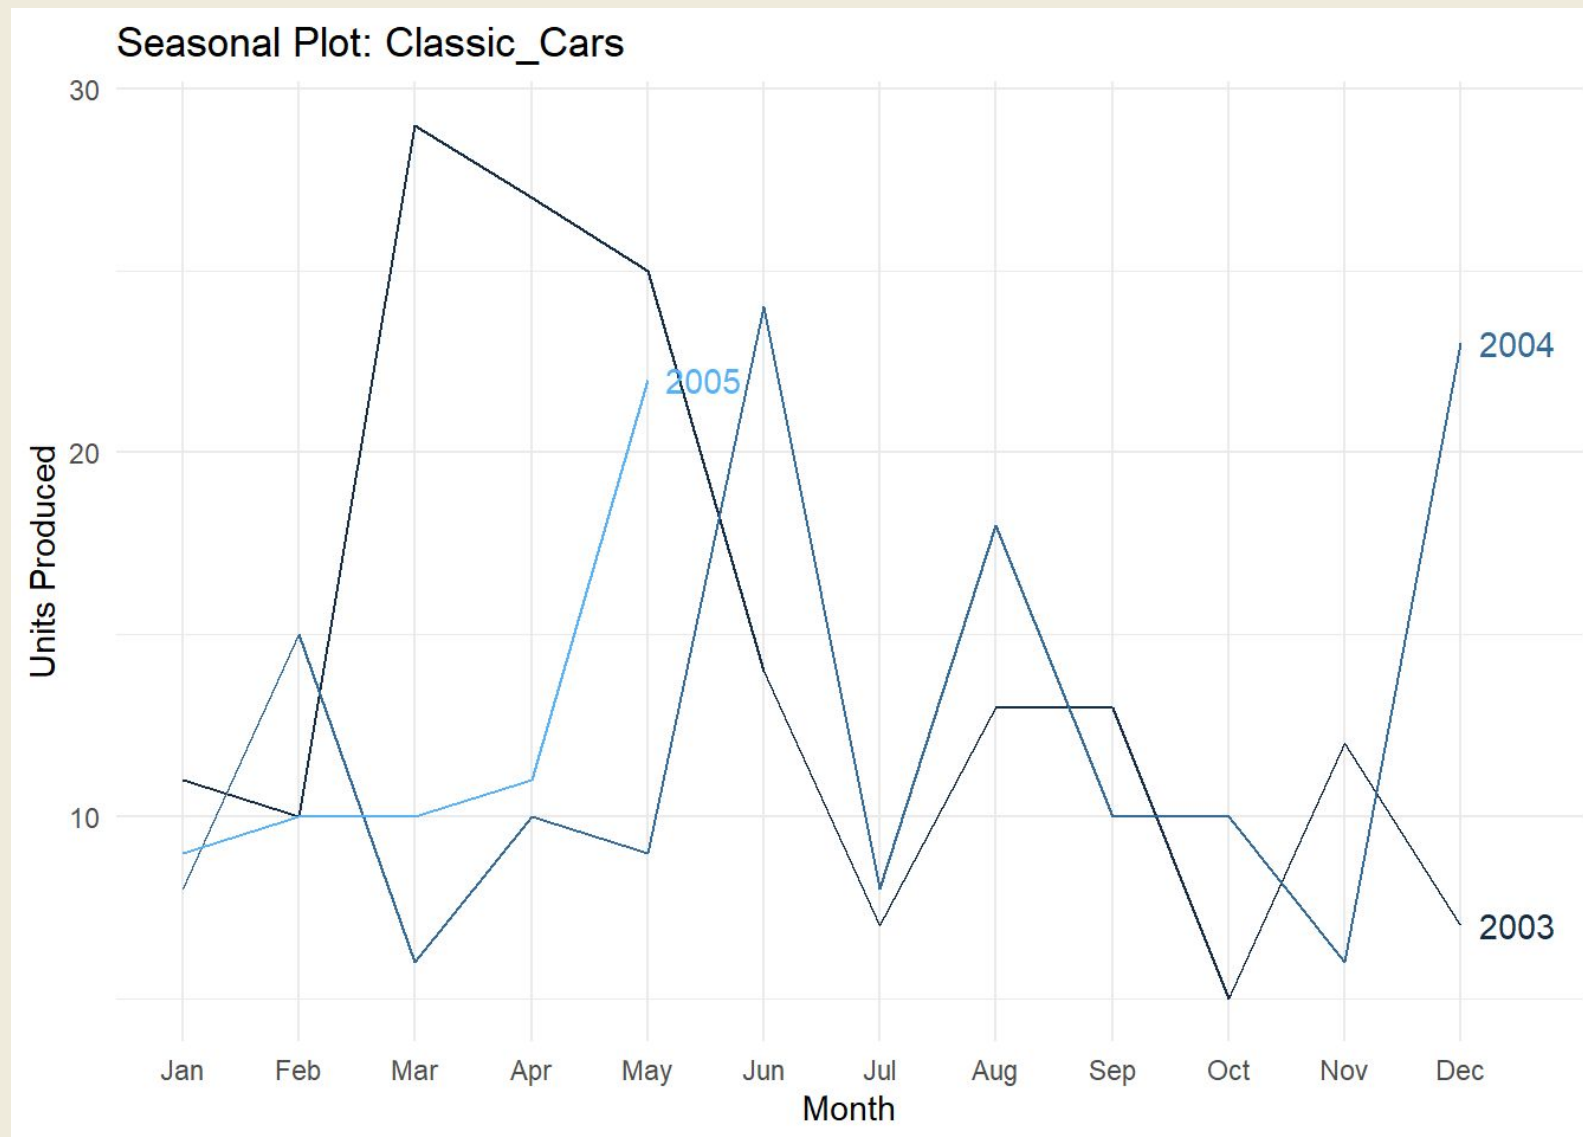

Production by factory:
Seasonal patterns difficult to discern from this alone

Monthly Actual Profit by Product Line (Jan 2003 - May 2005)

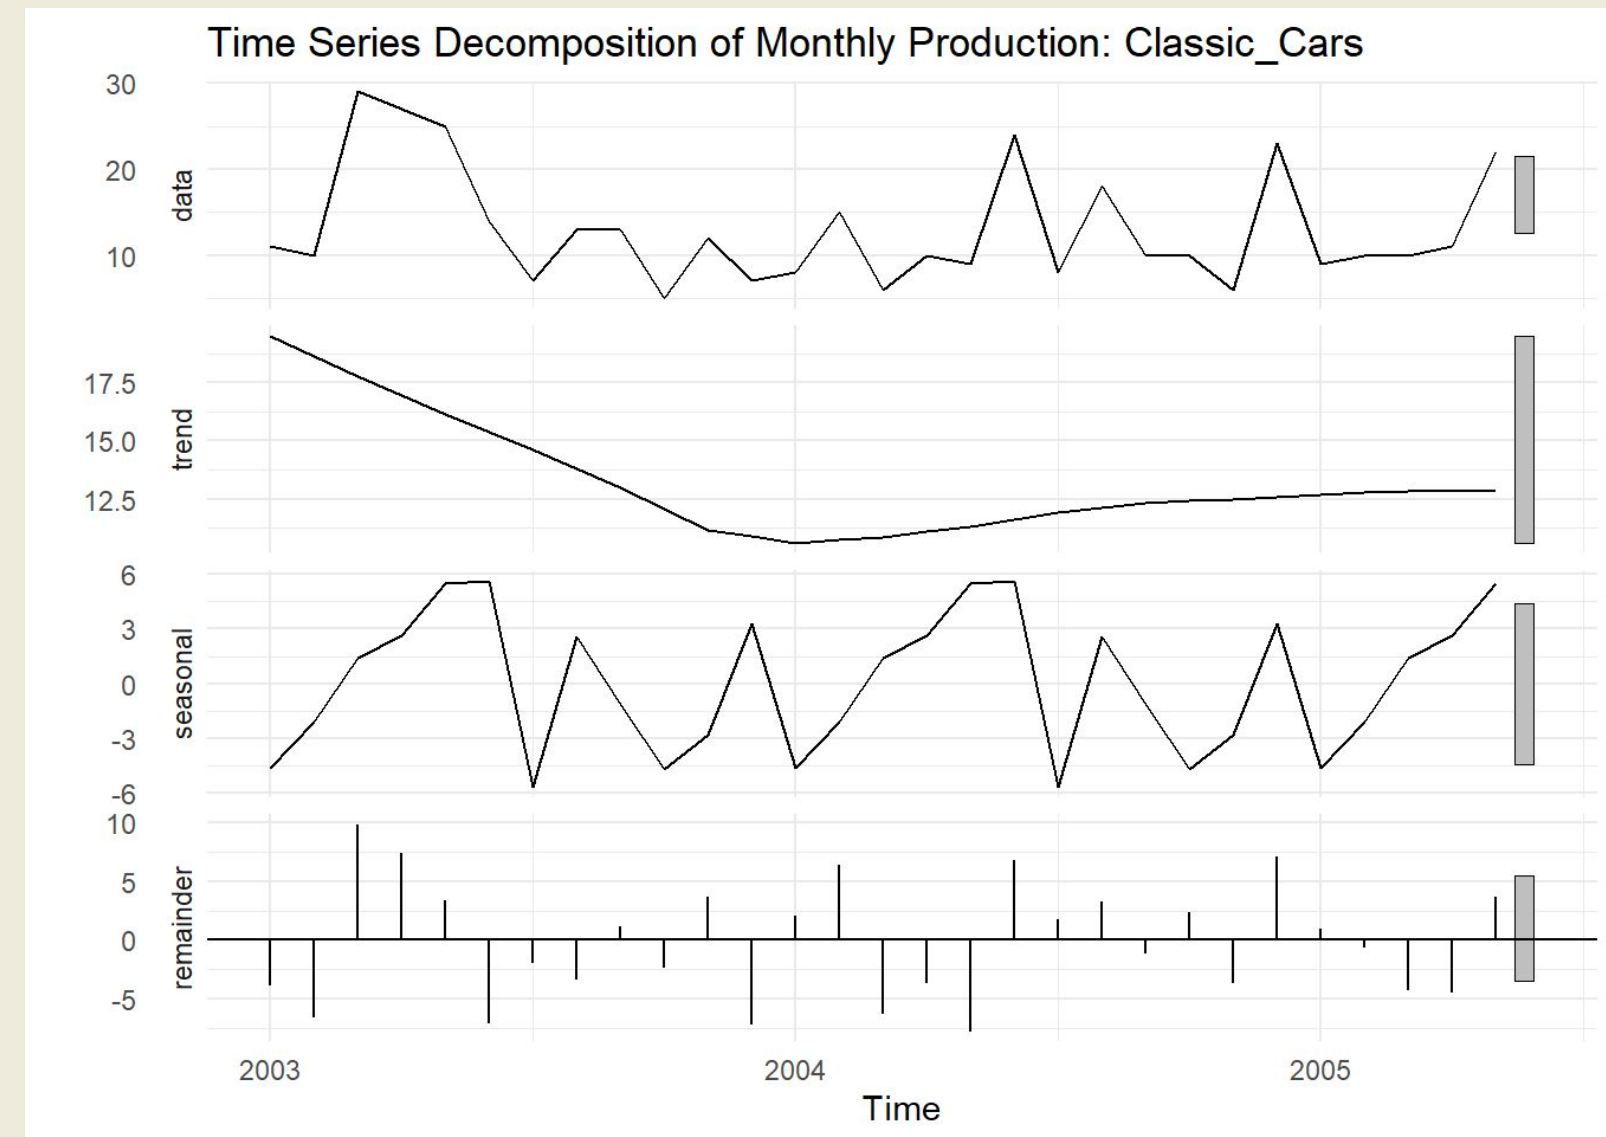

Monthly profit:
Profit indicates seasonality in sales

Seasonal Production Patterns

Yearly production data:

Trends seem possible, but difficult to know for sure

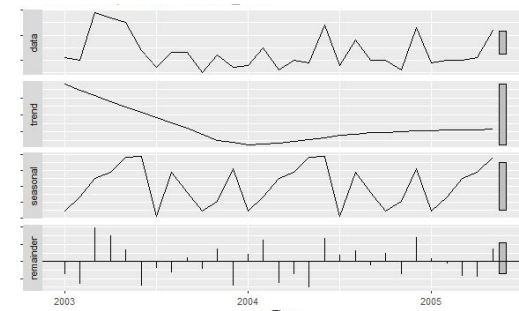

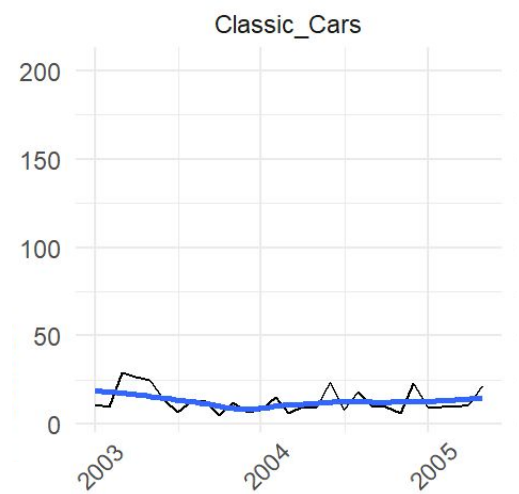

Decomposed:

Seasonal patterns now in focus

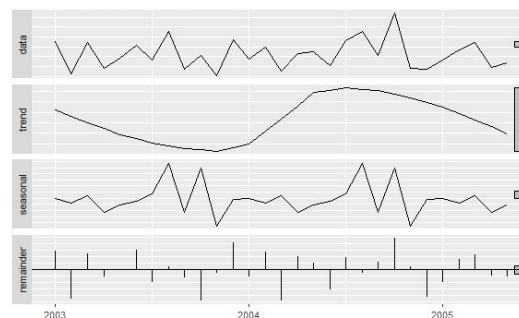

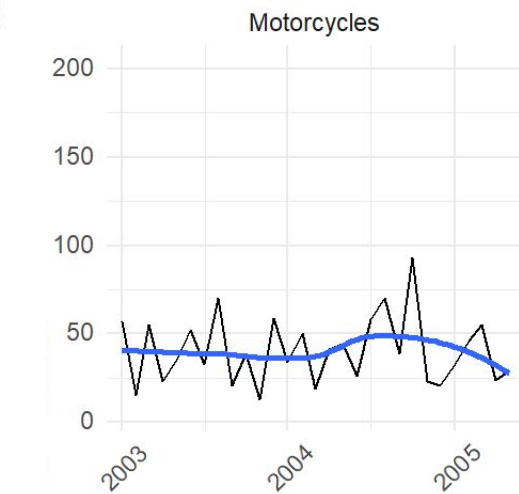

Production Seasonality:
Seasonal periods around August and November-December.

Forecasting Profits

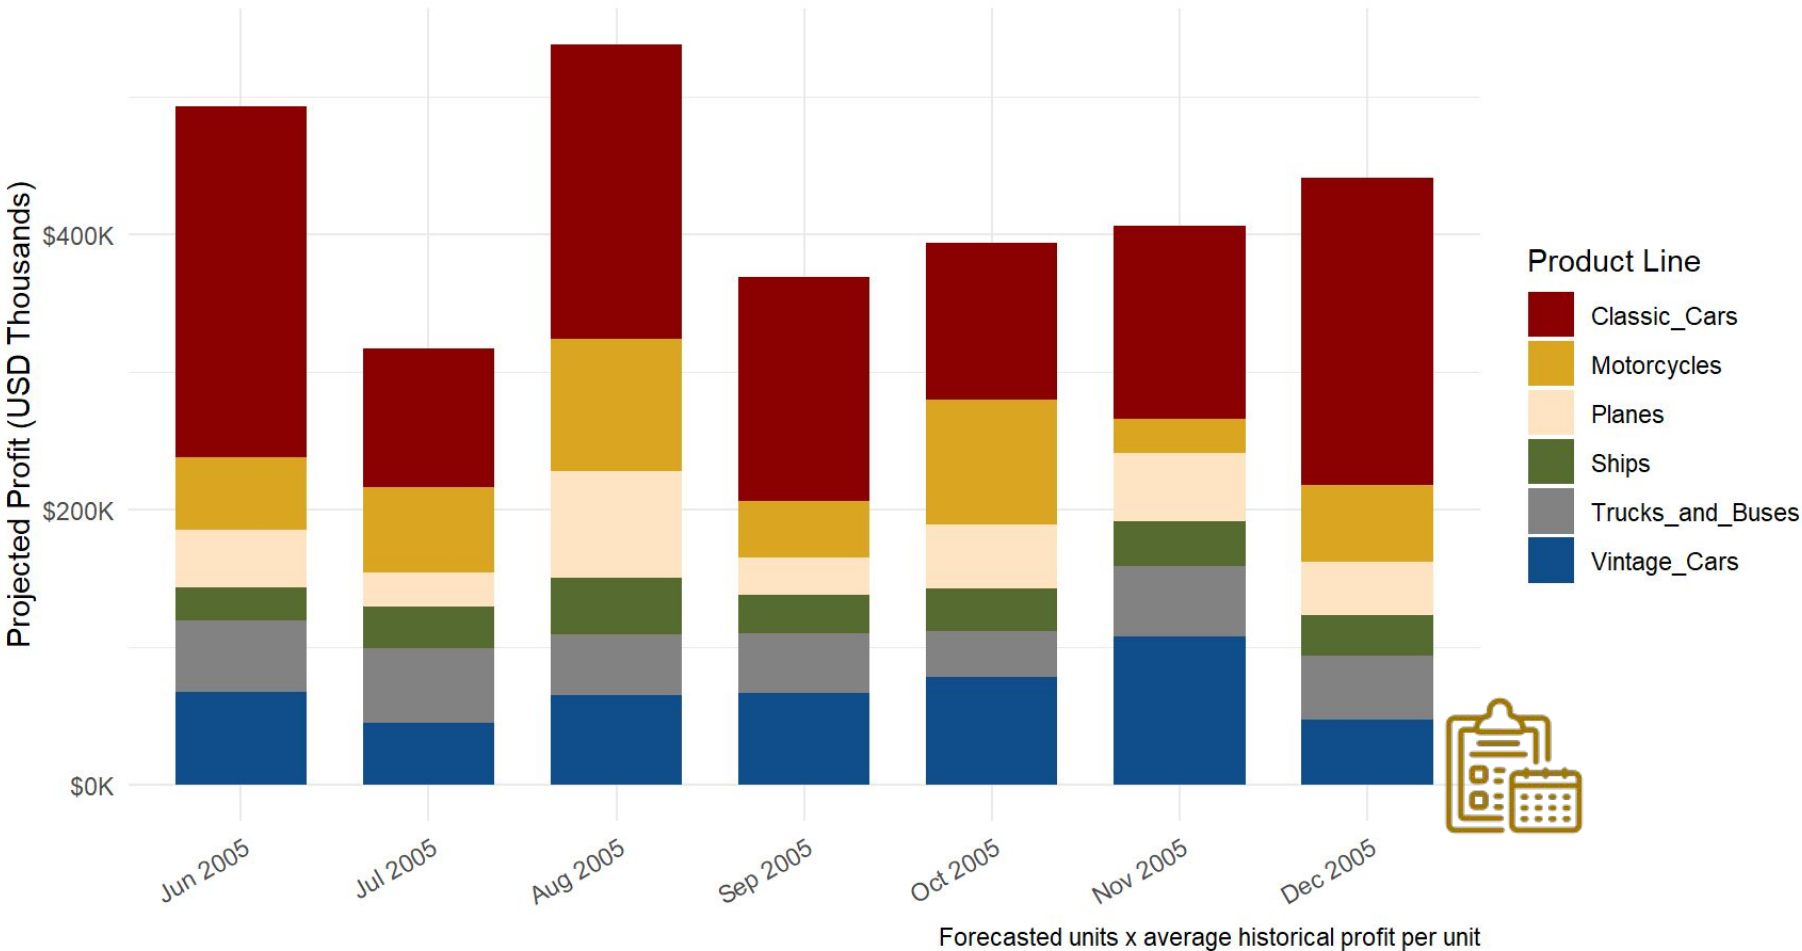

Deliverable:

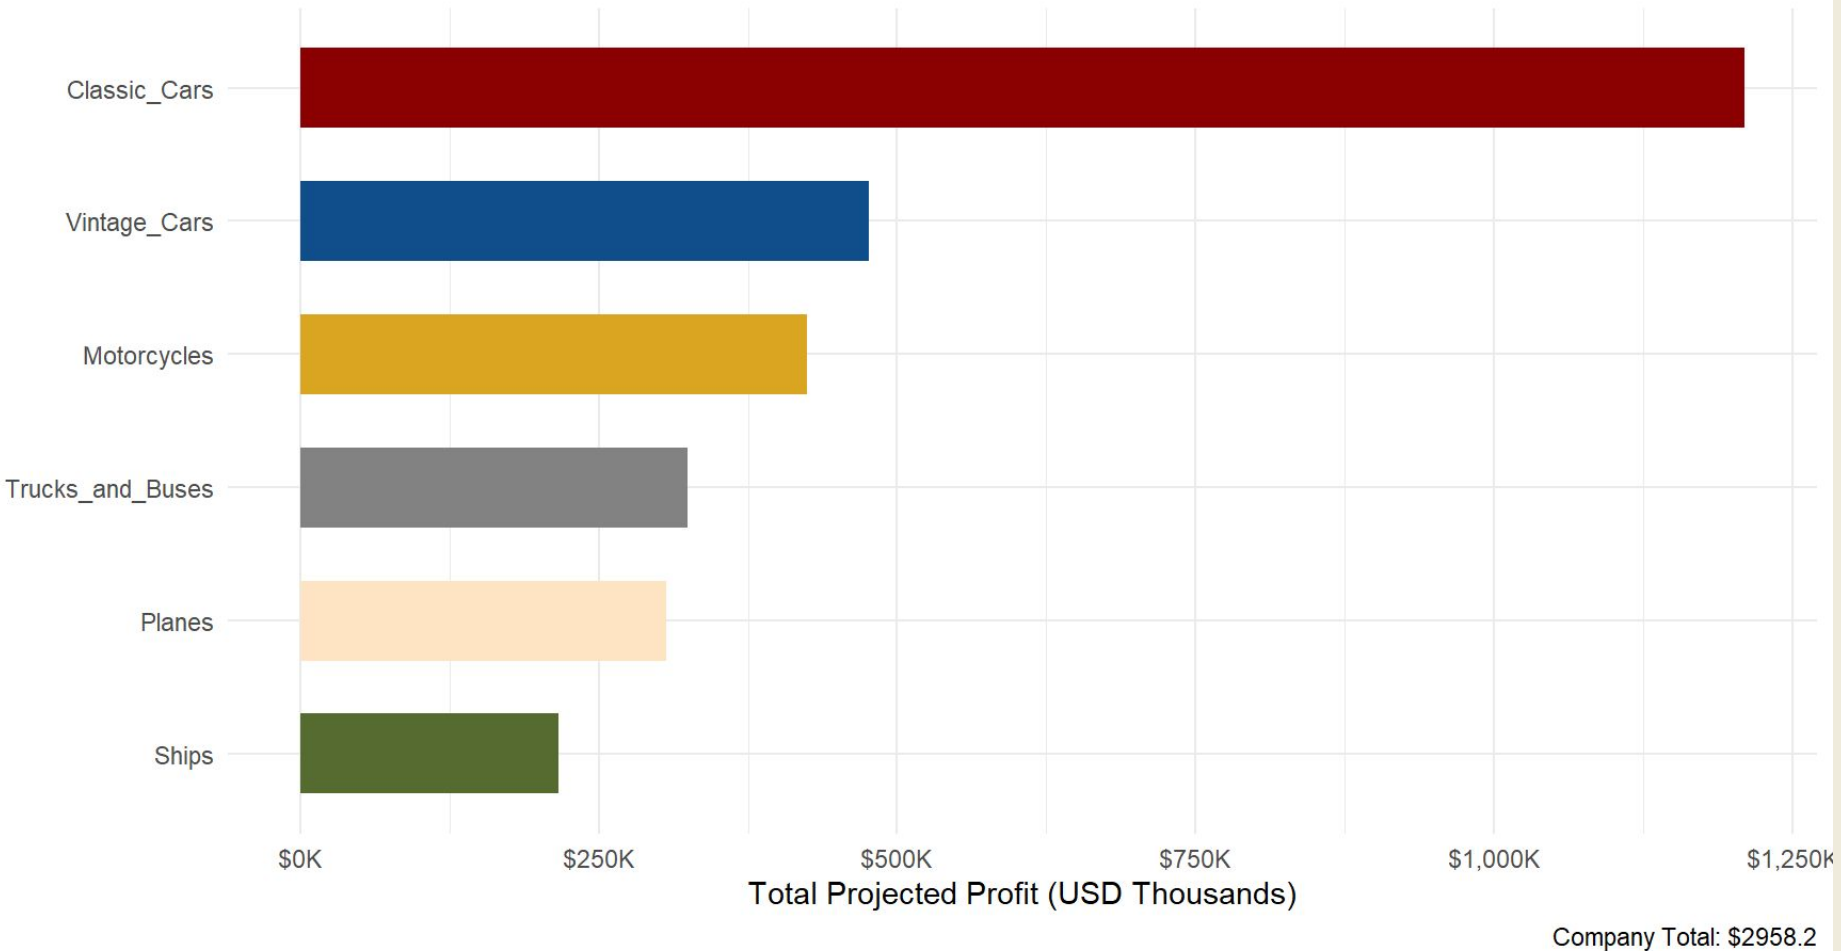

Classic Cars is the clear leader at over \$1.25M projected for the period, more than double any other line. Ships ranks last in total profit due to its low margin per unit despite high production.

Goals

Projected Monthly Profit by Product Line (Jun-Dec 2005)

Total Projected Profit by Product Line (Jun-Dec 2005)

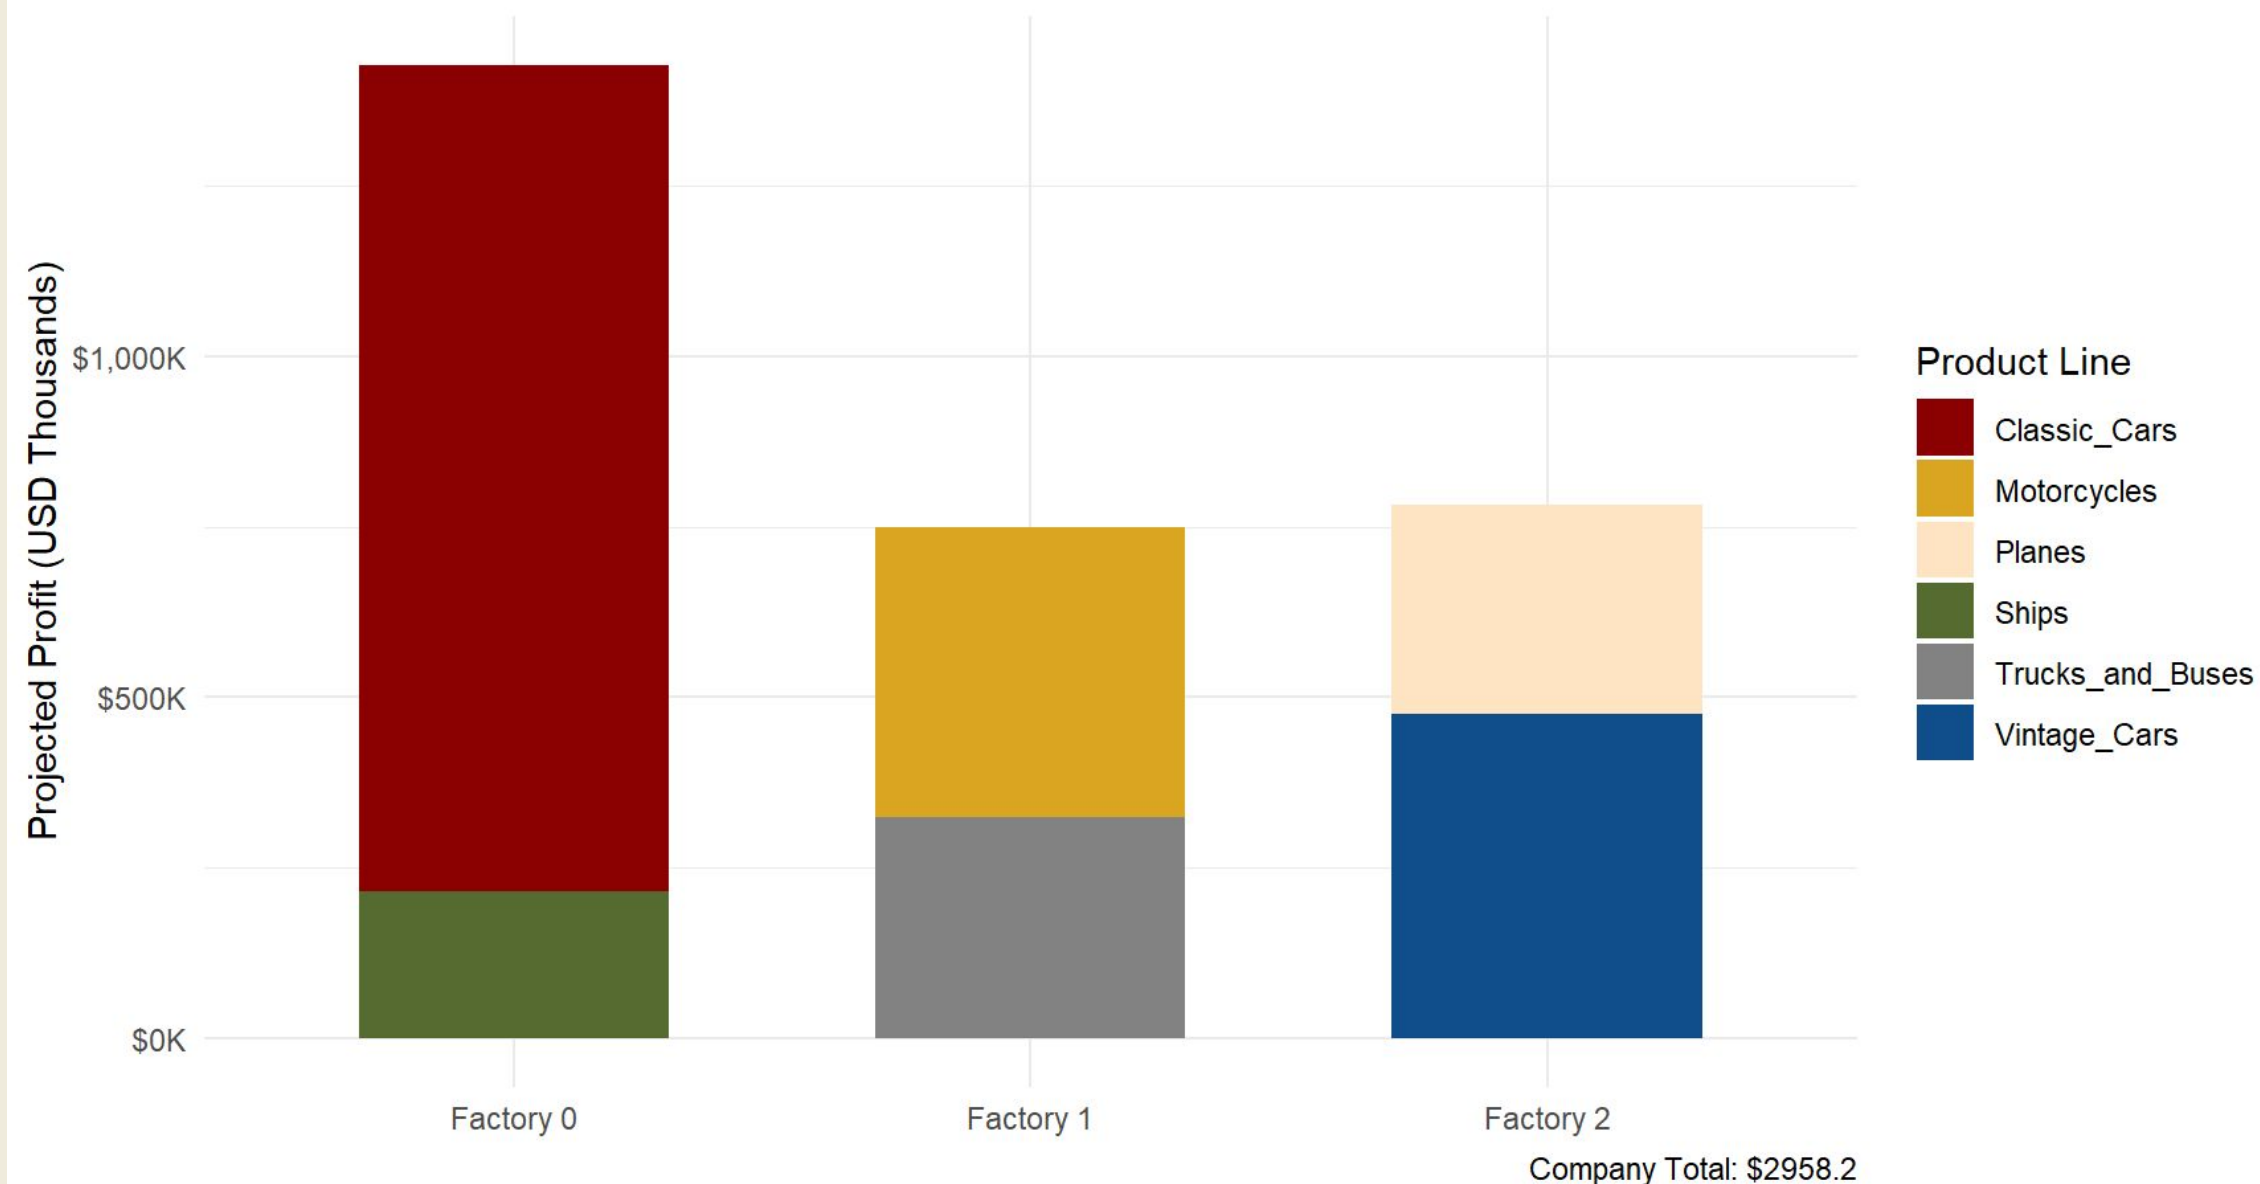

Deliverable:

Profit varies month to month but Classic Cars consistently drives the majority of company revenue throughout the 2nd half of 2005.

Forecasting Profits

Total Projected Profit by Factory and Product Line (Jun-Dec 2005)

Deliverable:

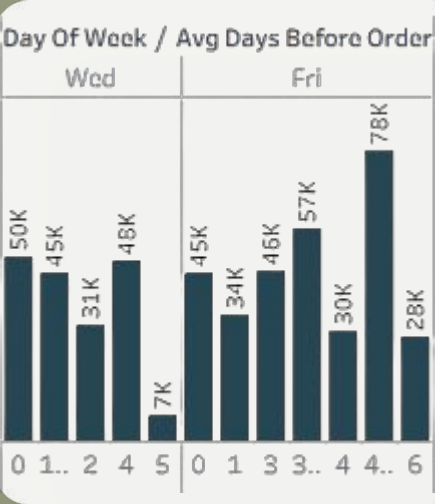

Factory 0 dominates at over \$1M driven almost entirely by Classic Cars, while Factories 1 and 2 sit around \$750K each with more balanced product line contributions.

Client Engagement

Highest customer email engagement with conversational emails sent on Wed and Fri

Conversation Email Rates

CLICKS	3.8%	
OPENS	6.5%	
UNSUB	0.7%	
ORDERS	1.6%	

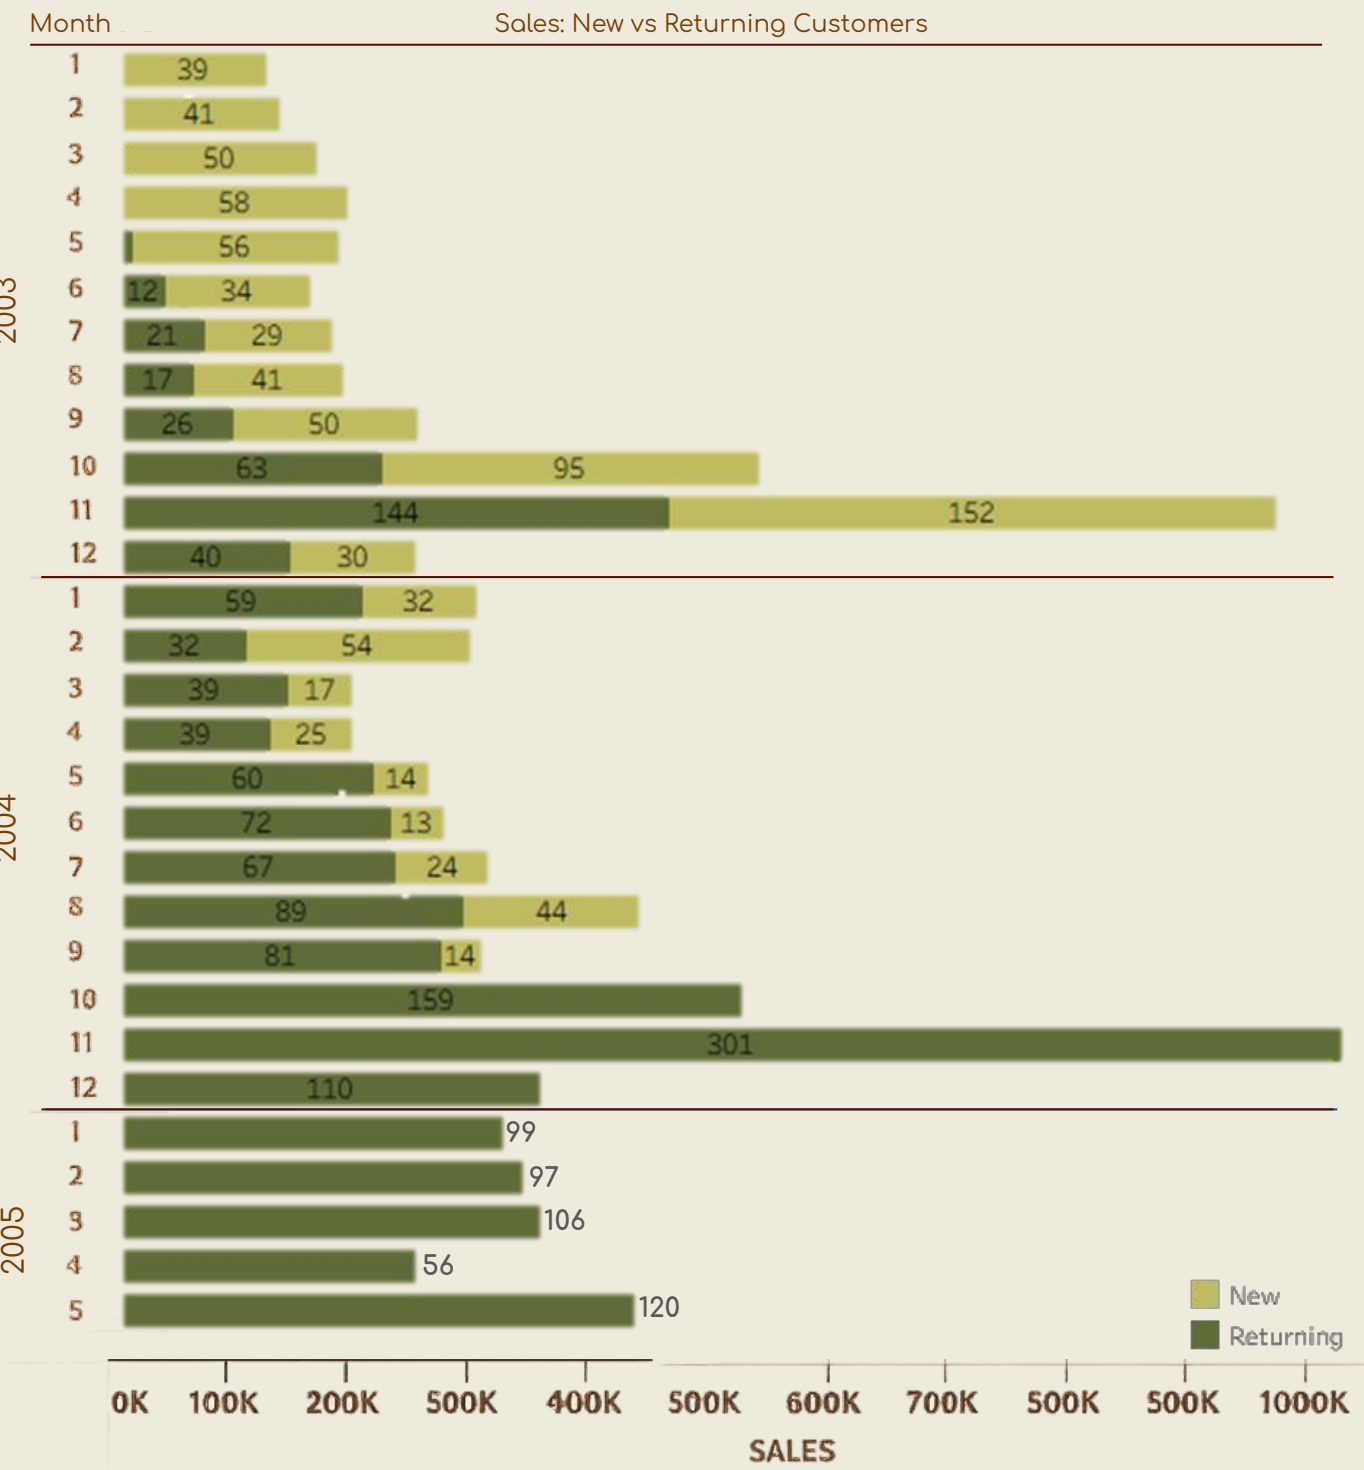

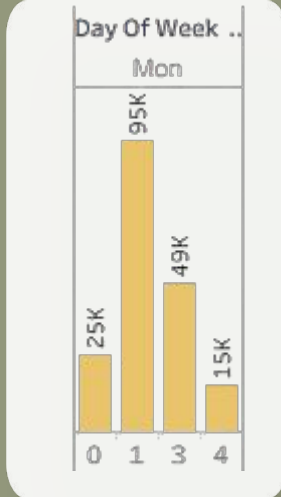

New customer engagement is decreasing while returning customers remain stable.

Deliverable: Send Conversational emails on Wednesdays and Fridays to boost customer engagement in orders, and reach new customers

Alarming Email Rates

CLICKS	3%	
OPENS	10%	
UNSUB	2.9%	
ORDERS	0.5%

North America, Spain, and France are our biggest contributors to order quantities and profits. They prioritize the purchasing of Classic Cars, Vintage Cars, and Motorcycles. We would like to look at their sister countries and reach into the untapped markets based on our main contributors preferences

Deliverables

This plan of action outlines our strategy for Timeless Transport Models to maximize their profitability through the second half of 2005

June 2005

Halt Train Production

Halt train production and reallocate space for active productions

Schedule Production

Schedule production increases for August and November-December based forecast ranges

Increase Pricing

Increase minimum unit selling point to CPU + 10-15% margin buffer

Expand our Reach

High potential markets in UK, Japan, Singapore, Australia, and South America. Send conversational emails on high engagement days (Wed and Fri)
